

ONE DAY BASIC TRAINING MONITORING AND EVALUATION

Insideout: M&E Specialists is a company that specialise in programme evaluations, developing monitoring and evaluation frameworks and conducting M&E training for non-profit and public sector organisations. We offer **practical training** aimed at practitioners who are responsible for, or involved in, monitoring and evaluation in their department.

The broad objectives of the course are to:

- Firstly, to highlight the value of M&E for the public sector within the context of the policy process;
- Secondly, to introduce basic M&E terms and concepts applicable to the public sector;
- Thirdly, to provide an understanding of the relationship between monitoring, measuring progress, transparency and accountability.

The learning outcomes for the one day course are presented below.

Monitoring and Evaluation

- Differences and similarities between evaluation, monitoring and research
- The value of M&E within the public sector policy process
- Differences between inputs, processes, activities, results: outputs, outcomes, and impact
- The definitions and purpose of indicators
- Concepts of baseline and performance targets

Government Wide Monitoring and Evaluation System

- The link between monitoring and evaluation systems and the Government Wide Monitoring and Evaluation System
- The key roles of government institutions in performance information management
- The importance of monitoring as a management tool
